

Welcome to Saloncare

The SalonCare™ Skin Improvement range really does improve the appearance of your skin! Effectiveness and safety are due to the use of vegetable derived ingredients and no unnecessary aggressive chemicals.

As we manufacture the entire range ourselves, reproducible quality and availability is assured. Our in-house Cosmetic Chemist works hard to ensure that the latest innovations and technologies are used in the range and safety is always our primary concern!

SalonCare™ is a professional product available through professional distributors, medical practitioners and trained therapists. The range contains a comprehensive listing of both facial and body treatment products. For sensitive skin types, SalonCare™ Sensitive products are fragrance and colourant free.
